Cumbria Technology Enabled Care Event

Thursday 18 June 13:30 - 16:00
Rheged Centre
Redhills, Penrith, Cumbria, CA11 0DQ

Join us to find out about the latest developments in technology enabled health and social care products and services and to talk about how we can use technology in the redesign of Health and Social Care in Cumbria. This will build on the Telecare work already undertaken by Cumbria County Council as well as the Telehealth pilots that have taken place around the county and further afield.

Topics to be discussed:

- New tools available from the NHS Commissioning Assembly - the Technology Enabled Care Services Resource

- How to use technology to enhance health and social care priorities such as prevention and well-being, remote consultations, managing long term conditions, independent living at home, winter pressures, mental health and dementia care

Featuring:

- Opportunities to meet local and national suppliers and find out about local technology services and projects currently in development

- The Cumbria Rural Health Forum will also be conducting a number of interviews giving you the perfect chance to express your views regarding Technology Enabled Care Services

If you are interested in attending this event, please visit www.telecare.org.uk/events/cumbria-technology-enabled-care-event to register your place

If you have any queries regarding the event, please get in touch with the TSA via admin@telecare.org.uk or 01625 520 320
